

The company's origins date back to 1980 and it is the result of a merger between two companies, Steap and Stailor. With the benefit of more than 30 years' experience, we specialise in the turnkey design and implementation of liquid and semi-liquid processing systems.

Viewed as a key player in the sector, our expertise is now recognised by major industrial corporations. We support our clients' development both in France and abroad (European Union, Eastern Europe, the Maghreb, the Middle East, South America, etc.).

Complete skills needed to implement a project :

- design
- assembly and installation
- electricity
- automation
- traceability

Business

Liquid and semi-liquid food process
